

Heavy Duty Fast-Fold® Deluxe

Foldable projection screen - 8.3 meters wide by 5.5 meters height maximum

Portable and very sturdy, foldable screen up to 838 cm widths for large scale applications. Ideal for events.

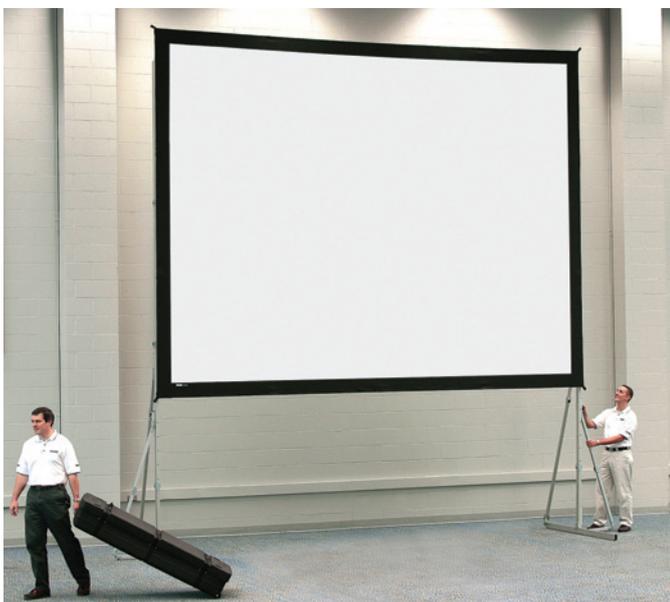

- The Heavy Duty Fast-Fold® Deluxe consists of a sturdy, folding aluminum frame (89 x 32 mm), two detachable heavy duty (HD) legs and a detachable projection screen surface which is attached to the frame by snaps.
- The frame is easy to set up without the use of tools.
- Sturdy legs with side supports for extra stability.
- The frame height is adjustable to any required viewing height in increments of 15 cm.
- Projection screen surfaces are seamless up to heights of 4.8 meters.
- The Matte White projection screen surface includes black backing as standard.
- Extra-wide black border (15 cm) on projection screen surfaces.
- The Heavy Duty Fast-Fold® Deluxe is supplied with two or three robust plastic travel cases on wheels.
- Drapery Presentation Kit, which is easy to attach to the frame, is available separately.
- The frame and screen surface can be custom made to exactly the right size. Borders can be optionally supplied in white.

Also available:

- Replacement screen surfaces
