Laptop Dolly

The foldable Laptop-dolly is designed for cameramen who want to work fast & light.

This dolly is manufactured from High grade Aluminium and Stainless Steel, as appropriate, to give longevity to the product. An ingenious hinge system makes it possible to fold the dolly to a package size of 70cm x 45cm x 8cm.

The push bar can be placed on each side of the dolly.

The steering bar is easily removable and can be attached to the push bar with a fast clicksysteM.

The aluminium top plates are supplied with inlaid anti-slip rubber surfaces.

100 mm bowl adaptors on two sides for easy low mode use.

9x Threaded M24 bolt positions for mounting a Euroboss to facilitate boss mounted accessories.
