547B - Pro Lightweight Aluminium Video Tripod

DESCRIPTION SPARE PARTS

The Manfrotto 547B Professional Video Tripod is a 1 stage, twin-leg construction providing great rigidity. It is designed with aluminum legs, technopolymers and die castings to ensure added strength and stability. The 547B Tripod is targeted to young videographers who need an immediate, simple and user friendly solution for their video production needs. Feature Highlights: • First Manfrotto tripod with a 60mm bowl (an ideal match with the 701HDV professional video head) • Upper twin-leg and the one stage construction provides great rigidity, allowing for 33 lbs of payload • Newly redesigned locking collars guarantee exceptional performance • Technopolymers incorporated into the upper casting and on the leg collars • Maximum torsion rigidity and incredible stability • Mid-level fixed spreader and retractable spiked rubber feet included • Lightweight, compact, maximum torsion rigidity and incredible stability • Order SKU: 547B Note: the 547B is also available in two kits with video heads: 701HDV,547B 501HDV,547B

### PRODUCT FEATURES

#### mid level spreader

Built-in mid-level spreader adds anti-torsional rigidity and stops the tripod legs from accidentally being knocked wider apart. Compared to a ground-level spreader or dolly, the mid-level spreader has the advantage that it stays well out of the mud and dirt and is more suitable for use on uneven terrain.
